

Floating Pellets

Exo Terra Aquatic Turtle food is a nutritious pellet diet enriched with Gammarus shrimp, minerals, multi vitamins and amino acids. Exo Terra Aquatic Turtle Juvenile food provides all growing aquatic and semi-aquatic turtles with a rich source of nutrients including vitamins, calcium (multiple sources), quality protein and more. This high quality extruded floating pellet helps turtles to develop and maintain a hard shell due to the both natural and supplemented sources of calcium. Vitamin D₃ is included and essential in ensuring proper absorption of calcium.

Aquatic Turtle
