

Lighting

Without the sun's energy, all life on earth would cease to exist. It is by the sun's energy that all life forces are driven. Without it, our planet would quickly radiate away its own energy in short order, making all life extinct.

TURTLE UVB BULB

Aquatic Turtle UVB Bulb

- Optimal light conditions for aquatic turtles
- Prevents shell softening and deformation
- Perfectly balanced UVA & UVB rays
- Stimulates appetite, breeding behavior and overall wellbeing of turtles

The Exo Terra Turtle UVB Bulb provides all the necessary light conditions for aquatic turtles. The Turtle UVB Bulb's balanced ultraviolet and visual light spectrum prevents shell softening and deformation while, adds to the physiological well-being and brings out the beauty of aquatic turtles. The bulb will contribute to the overall health of your turtles by providing the necessary UVB rays for optimal calcium metabolism while the UVA rays will contribute to the turtle's welfare.

Prevents shell softening and deformation

To obtain optimal results and safety, the bulb should be used in conjunction with the Exo Terra Turtle UVB Fixture.
