

Fixtures

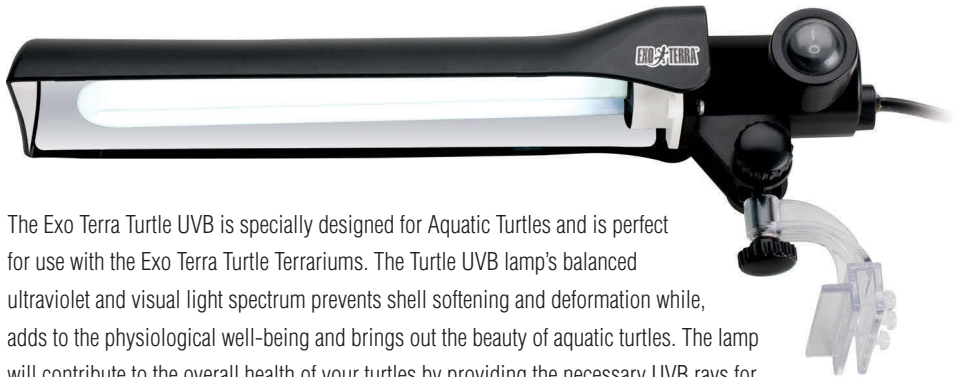

The fixture is an important aspect of the lighting and heating system, ensuring the safety and proper function of the applied light or heat source. All fixtures comply with both European and North American safety regulations and have been subject to testing by independent laboratories. Exo Terra is committed to ensuring you and your reptile's safety.

TURTLE UVB FIXTURE

Aquatic Turtle Fixture

- Ideal for Exo Terra's Turtle Terrarium
- Prevents shell softening and deformation
- Stimulates appetite, breeding behavior and overall wellbeing of turtles
- With On/Off switch and mounting bracket
- Lamp included

The Exo Terra Turtle UVB is specially designed for Aquatic Turtles and is perfect for use with the Exo Terra Turtle Terrariums. The Turtle UVB lamp's balanced ultraviolet and visual light spectrum prevents shell softening and deformation while, adds to the physiological well-being and brings out the beauty of aquatic turtles. The lamp will contribute to the overall health of your turtles by providing the necessary UVB rays for optimal calcium metabolism while the UVA rays will contribute to the turtle's welfare. The highly polished internal reflector enhances the UV and visual light output.
